

I have marked KS3 work, namely year 9, using the school's VLE.

A screenshot of the VLE system with the marks and feedback included is included above.

It is a new and innovative way to give & receive work from pupils and it allows us to mark it online also.

My marking was checked for accuracy and I was advised that my marking was accurate.

I have also marked KS4 work, mock exams, and they too have been checked by the head of department. I now feel very confident in marking work and giving feedback.
